EXECUTIVE MANAGEMENT PROGRAMME IN
**ADVANCED STRATEGIC
MANAGEMENT**

(Batch 03)

9 Months | Live Online Lectures

Programme offered by Continuing Education Programme (CEP), IIT Delhi

Strategic Management – A Flexibility And Innovation Imperative

In the contemporary VUCA (Volatile, Uncertain, Complex, & Ambiguous) landscape, thriving hinges on new-age innovations and adaptive strategies. Traditional business models are under siege from inventive counterparts, rendering the strategic arena in a state of flux. The evolving landscape of Strategic Management necessitates a comprehensive reassessment of organisational efficiency and efficacy. Equally crucial is nurturing leadership capabilities to architect the rules of engagement, fostering a competitive edge in this ever-changing paradigm.

Strategic Management Process

**Environment
Scanning**

**Strategy
Formulation**

**Strategy
Implementation**

**Strategy
Evaluation**

- **Environmental Scanning**

STRATEGY

Importance of Strategic Management

- Gives Competitive Edge
- Helps Achieve Stated Objectives & Desired Goals
- Improves Organisational Performance
- Aligns People & Processes with Strategic Vision
- Let's Hindsight Lead to Insights for Decisions with Foresight

Overview

In the dynamic landscape of business, strategic management emerges as the compass guiding enterprises towards enhanced competitiveness. It involves formulating goals, protocols, and objectives that empower organisations to excel. Grounded in a holistic evaluation of resources, it navigates the internal and external realms that shape an organisation's journey.

While breakthrough technologies and stellar products can establish initial success, true longevity necessitates strategic management. It forges a lasting imprint on the business map, ensuring sustained significance.

Elevate your strategic prowess with IIT Delhi's Executive Management Programme in Advanced Strategic Management. This immersive intake is meticulously designed for working professionals seeking to refine their skill sets and embrace leadership roles within their organisations. Embark on this transformative journey to wield the tools of strategic management and secure a resilient future for your career and enterprise.

About IIT Delhi

as per NIRF India
Management Rankings (2023)

as per ARIIA
Ranking (2021)

The Indian Institute of Technology Delhi (IIT Delhi) is one of the 5 initial IITs established for training, research and development in science, engineering and technology in India. Established as College of Engineering in 1961, the Institute was later declared as an Institution of National Importance under the "Institutes of Technology (Amendment) Act, 1963" and was renamed as "Indian Institute of Technology Delhi". It was then accorded the status of a Deemed University with powers to decide its own academic policy, to conduct its own examinations, and to award its own degrees.

Since its inception, over 48000 students have graduated from IIT Delhi in various disciplines, including Engineering, Physical Sciences, Management, Humanities and Social Sciences. Of these, nearly 5070 received PhD degrees. The rest obtained a Master's Degree in Engineering, Sciences and Business Administration. These alumni today work as scientists, technologists, business managers and entrepreneurs. There are several alumni who have moved away from their original disciplines and have taken to administrative services, active politics, or are with NGOs. In doing so, they have significantly contributed to the building of this nation and to industrialization around the world.

About Continuing Education Programme (CEP)

Executive education is a vital need for companies to build a culture that promotes newer technologies and solutions and builds a workforce that stays abreast of the rapidly transforming needs to the technological, business and regulatory landscape. Committed to the cause of making quality education accessible to all, IIT Delhi has launched Online Certificate Programmes under eVIDYA@IITD (ई-विद्या@IITD): enabling Virtual & Interactive-learning for Driving Youth Advancement@IITD for Indian as well as international participants. These outreach programmes offered by the Indian Institute of Technology Delhi (IIT Delhi) are designed to cater to the training and development needs of various organisations, industries, society and individual participants at national and international level with a vision to empower thousands of young learners by imparting high-quality Online Certificate Programmes in cutting-edge areas for their career advancement in different domains of engineering, technology, science, humanities and management.
